

FREE YOUR VOCALS

for hands-free lead and backing vocals

The C520 professional head-worn condenser microphone with maximum dynamic range for perfect vocal sound. An ideal choice for frontmen, singing keyboardists, drummers, guitarists and dancing performers needing a hands-free microphone. The moisture shield prevents perspiration from penetrating into the transducer element, ensuring a high degree of humidity protection for the microphone.

The C520 provides a transducer shock mount to reduce body noise to a minimum. Its cardioid polar pattern effectively rejects unwanted ambient noise. The microphone arm mounts on either the left or the right side of the headband.

Lightweight and adjustable headband construction
for maximum comfort and freedom of movement

Left and right flexible boom mounting
for precise positioning to the sound source

Condenser capsule on flexible shock mount
for efficient rejection of mechanical, ambient and body noise

Moisture shield
ensuring a dry microphone capsule

Available with professional mini XLR connector C520 L
for all AKG wireless body-pack transmitters or C520 with standard XLR connector

TECHNICAL SPECIFICATION

General	Audio frequency bandwidth	60 to 20000 Hz
	Equivalent Noise Level	31 dB-A
	Sensitivity	5 mV/Pa
	Signal to Noise	63 dB-A
	Electrical Impedance	200 Ohms
	Recommended Load Impedance	2000 Ohms

Polar Patterns Cardioid

Powering Interface	Voltage	9 to 52 V
	Current	2 mA

Audio Output	Type	Mini XLR
	Gender	Female
	Contacts	3-pin

Design	Finish	matte black
