TS-D1100 Series

Digital Conference System

Connect Remote Participants via USB

High-Quality Sound with Elegant Design

TS-D1100 series is a new generation **stand-alone conference system** with elegant design and high quality sound. Various functions are provided to facilitate smooth meetings.

Up to 246 conference units can easily be connected via CAT5 cable in a simple daisy chain configuration. The **built-in feedback suppression** ensures clear communication.

Choose the accessory to your requirements: Select between different microphone lengths, extend your connection lines using **extension units**, and **expand** your number of conference units **via up to 5 sub control units**.

The **operation surface comprises only of essential buttons**. This allows users to focus on the speaker. The whole design is made to be extremely unobtrusive, thus not creating a visual distraction for participants.

OPERATION MODE

Choose from multiple operation modes to match your meeting style - including delegate unit priority control, voice-activated microphone start, or chairman-only presentation mode - all with clear audio delivered via built-in speakers.
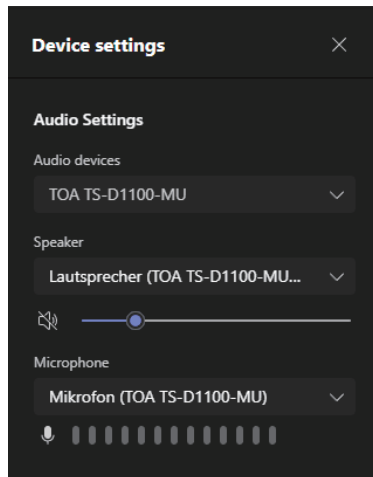

BUILT-IN AUDIO RECORDING

Meetings can be recorded in mp3 format on USB drive or internal memory (recording up to 18 hours).

Hybrid Conference, Easy Setup

USB-CONNECT

The direct USB connection to a PC enables audio input and output during web meetings and conferences.

SYSTEM COMPONENTS

TS-D1100-MU
Master Control Unit

- Up to 246 conference units controllable
- 2 x Mic In (Main/Sub), 3 x AUX In (Main/Sub/Main and Sub), Line Out, Rec Out, Headphone monitor out, EQ in/out
- Up to 8 open microphones, auto mic-off function, speech priority selectorfeedback suppressor

- Recording function using internal 1 GB memory (approx. 18 hours@128kbps) or USB memory up to 32 GB
- Rack-mountable with MB-TS920 optional bracket
- Control and conference mode setting by browser via PC/tablet
- Included USB audio interface

TS-D1000-CU
Chairman Unit

- Priority button
- 0.4 W monitor speaker
- 2 headphone jacks with individual volume control
- To be equipped with TS-D1000-M1 or TS-D1000-M2
- Daisy chain port for additional conference units

TS-D1000-DU
Delegate Unit

- 0.4 W monitor speaker
- 2 headphone jacks with individual volume control
- To be equipped with TS-D1000-M1 or TS-D1000-M2
- Daisy chain port for additional conference units

TS-D1100-MC
Microphone Unit

- Gooseneck microphone
- Discreet design
- LED indicator for microphone status
- Daisy chain port for additional conference units

TS-D1000-M1
Gooseneck Microphone (standard)

- Flexible gooseneck
- Unidirectional electret condenser microphone
- Illuminated red ring indicates active microphone status
- Length: 518 mm (1.7 ft)

TS-D1000-M2
Gooseneck Microphone (long)

- Flexible gooseneck
- Unidirectional electret condenser microphone
- Illuminated red ring indicates active microphone status
- Length: 668 mm (2.19 ft)

TS-D1100-SP
Speaker Unit

- 1 W speaker to address multiple people at once
- Covers a radius of approx. 3 m (9.8ft)
- Discreet design
- Control keys and LED indicators for speaker volume
- Daisy chain port for additional conference units

TS-D1000-SU
Sub control Unit

- Connects up to 48 conference units
- Up to 5 sub control units can be connected to the master control unit

TS-D1000-EX
Extension Unit

- Allows extension of cable distance to up to 50 m (164.04 ft) between master / sub control units and chairman / delegate units
- External power supply is included
- 2x conference unit line connector

MB-TS920
Rack Mounting Bracket

- Designed for use with TS-D1100-MU and others

We supply sound, not equipment.
